LETTER TO SHAREHOLDERS

Dear Shareholders,

On behalf of the Board of Directors of OceanaGold, we would like to take this opportunity to thank you for your ongoing support of our business and strategy to create the best gold mining company for our employees, communities, regulators, business partners, the environment and of course our investors. The team at OceanaGold remains staunchly committed to delivering consistent positive results that are underpinned by strong returns and cash flows while managing the inherent risks of a mining company.

We focus on operating in a responsible manner through our unwavering commitments to enhancing our Environment, Social and Governance (ESG) performance and are always seeking new opportunities to enhance our relationships with key stakeholders, like you. As a leader in our industry for maintaining the highest standards in health, safety, environment and community, we have built strong collaborative relationships with our communities and host governments. This is one way we manage geopolitical risk, however, just as importantly, it's also how we can create opportunities in new communities by showcasing our proven track record of operational and environmental stewardship.

2018 was another successful year for OceanaGold with strong operational and financial performance leading to delivering significant total shareholder returns. Our performance in 2018 was led by solid operational performance at our Didipio mine in the Philippines and our Macraes mine in New Zealand which for only the second time in its 30-year history, produced over 200,000 ounces of gold. For the seventh consecutive year, we achieved our production and cost guidance, noting that twice in 2018, we increased our production guidance range. We also continued to deliver a positive return on invested capital for an eighth consecutive year, an achievement that we are very proud of.

We are also proud at what we have achieved at Haile despite some challenges late in the year following severe storm events. It is a top-tier asset in a top jurisdiction and while we have been ramping up this relatively new operation, we have also been expanding it. By 2022, we expect Haile to be receiving regulatory approvals for expansion and successfully developing an underground operation producing over 200,000 ounces of gold per year with strong cash flow generation.

2018 was an exciting year for our organic growth opportunities, mainly at Waihi where we continued to advance the Martha Underground Project. Early in 2019, we received the resource consents (permits) to advance the Martha Underground project to operations, which we expect will add significant mine life to the Waihi operation, a great outcome for shareholders and local stakeholders. We continue to expand the resource at Waihi with significant increases announced in August 2018 and again this year in March 2019. In little over 14 months from the start of drilling, we announced an initial resource at our WKP prospect which located in close proximity to the Waihi operation. Although it is very early days, we are quite excited at the potential that WKP offers for our business and communities for many years ahead.

OceanaGold is positioned well for another successful year. We have a strong balance sheet with a very low-level of debt. We operate a suite of high-quality assets, all of which are expandable. We are currently producing 500,000 to 550,000 ounces of gold annually and hope to increase this over the next five years through our pipeline of organic growth opportunities. As we advance these growth opportunities we will also seek to deliver further value through exploration. Although our growth focus is mainly organic, we will continue to remain engaged in external opportunities that align with our business and culture.

Sincerely,

James E. Askew
Chairman of the Board

Michael F. Wilkes

VOTING INFORMATION

1. Solicitation of proxies

This Management Information Circular is furnished in connection with the solicitation of proxies being made by the management of OceanaGold Corporation (“OGC”, “OceanaGold”, or the “Company”) for use at the Annual General and Special Meeting of the Company’s shareholders (the “Shareholders”) to be held on June 14, 2019 (the “Meeting”), at the time and place and for the purposes set forth in the accompanying Notice of Meeting. While it is expected that the solicitation will be made primarily by mail, proxies may be solicited personally or by telephone by directors, officers and employees of the Company at nominal cost.

All costs of this solicitation will be borne by the Company.

2. Proxy and voting instructions

Only registered Shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Registered shareholders who cannot attend the Meeting in person may vote by proxy or attend and vote online during the AGM. Proxies must be received by the appropriate office of Computershare Investor Services Inc. (“Computershare”) Proxy Dept. 100 University Avenue, 8th Floor, Toronto, Ontario, M5J 2Y1 Canada, the Company’s registrar and transfer agent, not less than 48 hours prior to the Meeting (excluding Saturdays, Sundays and holidays). Non-registered shareholders can provide voting instructions by lodging the voting instruction form received from Computershare or “request for voting instruction form”, as applicable, in accordance with the instructions set out therein and as further discussed below.

2.1. Appointment of proxyholder by registered Shareholders

You are a registered Shareholder of the Company if you hold common shares of the Company (“Common Shares”) in your own name. A registered Shareholder has the right to designate a person (who need not be a Shareholder of the Company), other than MICHAEL FRANCIS WILKES, President and Chief Executive Officer or LIANG TANG, Executive Vice President, General Counsel and Company Secretary (“Management Designees”), to attend and act for the Shareholder at the Meeting.

- If you are returning your proxy to Computershare, such right may be exercised by inserting in the blank space provided in the enclosed form of proxy the name of the person to be designated or by completing another proper form of proxy and delivering same to the Toronto office of Computershare: Proxy Dept. 100 University Avenue, 8th Floor, Toronto, Ontario, M5J 2Y1 Canada, not less than 48 hours prior to the Meeting (excluding Saturdays, Sundays and holidays).
- If you are using the internet, you may designate another proxyholder by following the instructions on the website.
- It is not possible to appoint an alternate proxyholder by phone.

If you appoint a proxyholder other than the Management Designees, that proxyholder must attend the Meeting for your vote to be counted.

2.2. Special instructions for voting by non-registered Shareholders

Many of our Shareholders are beneficial Shareholders or Non-Registered Shareholders (“Non-Registered Shareholders”) because their Common Shares are not registered in their names. A person is a Non-Registered Shareholder if their Common Shares are registered either: (a) in the name of an intermediary such as a bank, trust company, securities dealer or broker and trustee or administrators of self-administered plans; or (b) in the name of a clearing agency, such as the Canadian Depository for Securities Limited in Canada or CHESS Depository Nominees Pty Ltd. (“CDN”) in Australia.

These proxy-related materials are being sent to both registered Shareholders and Non-Registered Shareholders. If you are a Non-Registered Shareholder, and the Company has sent these proxy-related materials directly to you, your name and address and information about your holdings of Common Shares have been obtained in accordance with applicable securities requirements from the intermediary on your behalf.

In order to vote their Common Shares, non-registered Shareholders (“Non-Registered Shareholders”) must request a form of legal proxy from Computershare granting them the right to attend the Meeting and vote in person or follow the instructions set out below.

2.2.1. Canada - TSX listed Common Shares

In Canada, there are two kinds of Non-Registered Shareholders - those who object to their name being made known to the Company (called OBOs for “Objecting Beneficial Owners”) and those who do not object to the Company knowing who they are (called NOBOs for “Non-Objecting Beneficial Owners”).

NOBOs

The Company takes advantage of certain provisions of National Instrument 54-101 – Communications with Beneficial Owners of Securities of a Reporting Issuer (“NI 54-101”), which permits the Company to directly deliver proxy-related materials to NOBOs who have not waived the right to receive them (the Company is not sending proxy-related materials using notice-and-access this year). As a result, NOBOs can expect to receive a scannable VIF together with the meeting materials from our transfer agent, Computershare. These VIFs are to be completed and returned to Computershare in accordance with the instructions. Computershare is required to follow the voting instructions properly received from NOBOs. Computershare will tabulate the results of the VIFs received from NOBOs and will provide appropriate instructions at the Meeting with respect to the Common Shares represented by the VIFs they receive.

By choosing to send these materials to you directly, the Company (and not the intermediary holding on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions.

If a NOBO wishes to attend the Meeting and vote in person (or have another person attend and vote on behalf of the NOBO), the NOBO should insert the name of the NOBO (or the name of the person that the NOBO wants to attend and vote on the NOBO’s behalf) in the space provided on the VIF and return it to Computershare in accordance with the instructions provided on the VIF. If Computershare or the Company receives a written request that the NOBO or its nominee be appointed as proxyholder, if management is holding a proxy with respect to Common Shares beneficially owned by such NOBO, the Company must arrange, without expense to the NOBO, to appoint the NOBO or its nominee as proxyholder in respect of those Common Shares. Under NI 54-101, unless corporate law does not allow it, if the NOBO or its nominee is appointed as proxyholder by the Company in this manner, the NOBO or its nominee, as applicable, must be given the authority to attend, vote and otherwise act for and on behalf of management in respect of all matters that come before the meeting and any adjournment or postponement of the meeting. If the Company receives such instructions at least one business day before the deadline for submission of proxies, it is required to deposit the proxy within that deadline, in order to appoint the NOBO or its nominee as proxyholder. **If a NOBO requests that the NOBO or its nominee be appointed as proxyholder, the NOBO or its appointed nominee, as applicable, will need to attend the meeting in person in order for the NOBOs vote to be counted.**

OBOs

In accordance with the requirements of NI 54-101, the Company has distributed copies of the meeting materials to the intermediaries for onward distribution to OBOs. Intermediaries are required to forward the meeting materials to OBOs unless, in the case of certain proxy-related materials, the OBO has waived the right to receive them. Very often, intermediaries will use service companies to forward the meeting materials to OBOs. With those meeting materials, intermediaries or their service companies should provide OBOs with a “request for voting instruction form” which, when properly completed and signed by such OBO and returned to the intermediary or its service company, will constitute voting instructions which the intermediary must follow. The purpose of this procedure is to permit OBOs to direct the voting of the Common Shares that they beneficially own. The Company intends to pay for intermediaries to deliver the meeting materials to OBOs.

Please return your voting instructions as specified in the request for voting instructions.

If an OBO wishes to attend the Meeting and vote in person (or have another person attend and vote on behalf of the OBO), the OBO should insert the OBO’s name (or the name of the person the OBO wants to attend and vote on the OBO’s behalf) in the space provided for that purpose on the request for voting instructions form and return it to the OBO’s intermediary or send the intermediary another written request that the OBO or its nominee be appointed as proxyholder. The intermediary is required under NI 54-101 to arrange, without expense to the OBO, to appoint the OBO or its nominee as proxyholder in respect of the OBO’s common shares. Under NI 54-101, unless corporate law does not allow it, if the intermediary makes an appointment in this manner, the OBO or its nominee, as applicable, must be given authority to attend, vote and otherwise act for and on behalf of the

intermediary (who is the registered Shareholder) in respect of all matters that come before the meeting and any adjournment or postponement of the meeting. An intermediary who receives such instructions at least one business day before the deadline for submission of proxies is required to deposit the proxy within that deadline, in order to appoint the OBO or its nominee as proxyholder. **If an OBO requests that the intermediary appoint the OBO or its nominee as proxyholder, the OBO or its appointed nominee, as applicable, will need to attend the meeting in person in order for the OBO's vote to be counted.**

2.2.2. Australia - ASX listed CHESS Depository Interests

Non-Registered Shareholders in Australia hold CHESS Depository Interests ("CDIs") of the Company, or units of beneficial ownership of the underlying Common Shares, which are registered in the name of CDN. As holders of CDIs are not the legal owners of the underlying Common Shares, CDN is entitled to vote at the Meeting at the instruction of the holder of the CDIs.

As a result, holders of CDIs can expect to receive a VIF, together with the meeting materials from Computershare in Australia. These VIFs are to be completed and returned to Computershare in accordance with the instructions contained therein. CDN is required to follow the voting instructions properly received from holders of CDIs.

To obtain a copy of CDN's Financial Services Guide, phone 1300 300 279 or go to:

http://www.asx.com.au/documents/settlement/CHESS_Depository_Interests.pdf

2.3. Voting instructions and authorities

VIFs from NOBOs must be received by the appropriate office of Computershare, not less than 48 hours prior to the Meeting (excluding Saturdays, Sundays and holidays). VIFs from CDI holders are to be completed and returned to Computershare in accordance with the instructions contained therein. "Request for voting instruction forms" must be returned in accordance with the instructions set out therein.

A proxy or VIF returned to Computershare will not be valid unless signed by the Shareholder or by the Shareholder's attorney duly authorized in writing or, if the Shareholder is a corporation or association, the form of proxy or VIF must be executed by an officer or by an attorney duly authorized in writing. If the form of proxy or VIF is executed by an attorney for an individual Shareholder or by an officer or attorney of a Shareholder that is a corporation or association, documentation evidencing the power to sign the proxy or VIF may be required with signing capacity stated. If not dated, the proxy or VIF will be deemed to have been dated the date that it is mailed to Shareholders.

The securities represented by proxy or VIF will be voted or withheld from voting in accordance with the instructions of the Shareholder on any ballot that may be called for, and if the Shareholder specifies a choice with respect to any matter to be acted upon, the securities will be voted accordingly. If a choice with respect to such matters is not specified, the form of proxy or VIF confers discretionary authority upon the named proxyholder with respect to matters identified in the accompanying Notice of Meeting. It is intended that the person designated by management in the form of proxy or VIF will vote the securities represented by the proxy **IN FAVOUR OF** each matter identified in the proxy and **FOR** the nominees of management for directors and auditor.

The proxy or VIF confers discretionary authority upon the named proxyholder with respect to amendments to or variations in matters identified in the accompanying Notice of Meeting and other matters which may properly come before the Meeting. As at the date of this Management Information Circular, management is not aware of any amendments, variations, or other matters. If such should occur, the persons designated by management will vote thereon in accordance with their best judgment, exercising discretionary authority.

Management knows of no other matters to come before the Meeting other than those referred to in the Notice of Meeting. However, if any other matters which are not known to management shall properly come before the Meeting, the form of proxy given pursuant to the solicitation by management will be voted on such matters in accordance with the best judgment of the persons voting the proxy.

2.4. Revocation of proxies

In addition to revocation in any manner permitted by law, a proxy may be revoked by an instrument in writing signed by the Shareholder or by the Shareholder's attorney duly authorized in writing which is dated after the date of the proxy being revoked and deposited with the Company's registered office, c/o Fasken Martineau DuMoulin LLP, Suite 2900, 550 Burrard Street, Vancouver, British Columbia, V6C 0A3, at any time up to and including the last business day preceding the day of the Meeting or any adjournment thereof, or, as to any matter in respect of which a vote shall not already have been cast pursuant to such proxy, with the Chairman of the Meeting on the day of the Meeting, or at any adjournment thereof, and upon either of such deposits the proxy or voting instructions are revoked. **Only registered Shareholders have the right to revoke a Proxy.** NOBOs that wish to change their voting instructions must, in sufficient time in advance of the Meeting, contact Computershare to arrange to change their voting

instructions. OBOs who wish to change their voting instructions must contact their intermediary to arrange to do this in sufficient time before the Meeting.

3. Direct voting online during the AGM

Attending the Meeting online enables shareholders, appointed proxies, CDI holders (CHESS Depository Interest holders), OBO and NOBOs holders to view the AGM live and ask questions. Registered shareholders and appointed proxies can also direct votes at the appropriate times whilst the meeting is in progress. CDI, OBO and NOBO holders must direct their votes using their Voting Instruction Form or request for voting instruction form, as applicable, before the Meeting and cannot vote online during the Meeting.

General Developments

On February 21, 2019, the Company announced that after nearly twelve (12) years, its Non-Executive Chairman, Mr Jim Askew will retire and not seek re-election at the upcoming Meeting. The Board would like to take this opportunity to thank Mr Askew for his leadership and contribution to OceanaGold.

With Mr Askew's planned retirement, the Company anticipates appointing Mr Ian Reid as the new non-executive Chairman of OceanaGold, should he be re-elected as a non-executive director of the Company at the 2019 Meeting. Mr Reid was appointed to the Board of the Company in April 2018 and has been a valued member of the Board since. The current Board fully endorses his

appointment as the new Chairman. Mr Reid is a professional company director with a deep background in mining services, executive management of global companies and performance improvement and brings to the Board decades of experience in the mining, construction, tire services, engineering consulting, financial services and energy service industries.

The Board also welcomed Mr Craig Nelsen to the Board on February 21, 2019. Mr Nelsen has over 40 years in exploration, resource development and mine development experience. Most recently, he was the founder, CEO and Chairman of Avanti Mining Inc. Formerly, he was Vice President of Exploration for Lac Minerals Ltd., the founding CEO and Chairman of Metallica Resources until its merger into New Gold where he served as Chairman and Director. He also served as Executive Vice President Exploration of Gold Fields Ltd and is currently a Non-Executive Director with Golden Star Resources.

Majority Voting Policy

The Board has adopted a majority voting policy (the "Majority Voting Policy"), the terms of which have been reviewed by the Toronto Stock Exchange, and believes each of its members should carry the confidence and support of the majority of Shareholders. Each of the current directors has agreed to abide by the provisions of the Majority Voting Policy, which is available at the Company's website at www.oceanagold.com.

Forms of proxy for the uncontested election of directors at an annual meeting of Shareholders of the Company will permit a Shareholder to vote in favour of or to withhold from voting separately for each director nominee. The Chairman of the Board will direct that the number of shares voted in favour or withheld from voting for each director nominee is recorded and promptly made public after such annual meeting of Shareholders.

If a director nominee has more votes withheld than are voted in favour of him or her, the nominee will be considered by the Board not to have received the support of the Shareholders, even though duly elected as a matter of corporate law. Such a nominee will be required to submit his or her resignation to the Board, effective on acceptance by the Board. The Board will refer the resignation to the Remuneration and Nomination Committee for consideration. With the exception of exceptional circumstances that would warrant the continued service of the director, the Remuneration and Nomination Committee shall accept and recommend the acceptance of the tendered resignation.

The Board will make its decision after consideration of the Remuneration and Nomination Committee's recommendation whether to accept the resignation. The director nominee who submitted his or her resignation will not participate in the deliberations regarding the resignation. The Board will make a decision on whether or not it will accept the resignation within 90 days of the annual meeting.

Term Limits

The Company has not adopted term limits for individual directors. The Board believes that individuals can continue to remain effective beyond a maximum period of service. Over the past few years, the Company has made a concerted effort to accommodate retirements with the thoughtful selection of new Board members. Through this renewal process, the Company has brought onboard directors with new perspectives and approaches who could further strengthen the experience and skills represented on the Board. This has complemented the depth of knowledge and insight about the Company and its business operations that the Company's long-standing directors have developed over time.

Resolution 3 – Advisory Vote on Executive Compensation

Shareholders have the opportunity to vote on OceanaGold’s approach to executive compensation. The vote is advisory and non-binding, but will provide the Remuneration and Nomination Committee, as well as the Board, with important feedback.

The Company encourages Shareholders to review our compensation philosophy outlined below at Section B (*General Compensation Discussion & Analysis*). Information relating to the quantum of compensation paid to the Company’s executives is outlined at Section E (*Executive Management Profiles and Compensation*).

In 2018, the Company continued to solidify its position as a high margin, multinational, mid-tier gold producer and focusing on the efficient and safe operation of its asset base and advancement of organic growth initiatives through extensive exploration activities and project studies.

For the year 2018, the Company reported record revenue of \$773 million and net profit after tax of \$122 million. With the strong financial performance, the Company repaid \$50 million of debt and reduced its net debt to \$69 million after paying dividends of \$18.6 million.

For the seventh consecutive year, the Company achieved its full year production and cost guidance. The Company produced 533,286 ounces of gold, which was in line with the full year guidance range of 515,000 to 545,000 ounces of gold and produced 14,999 tonnes of copper, also in line with full year guidance. In 2018, the Company increased its gold production guidance twice. For the full year, the Company recorded All-In Sustaining Costs of \$767 per ounce and Cash Costs of \$489 per ounce, both net of by-products and on sales of 532,716 ounces of gold and 14,527 tonnes of copper. Please refer to page 40 for further disclosure relating to Cash Costs and All-In Sustaining Costs which are non-GAAP Measures.

The Company continues to identify organic and external growth opportunities to further create shareholder value. The Company will remain disciplined in its use of capital, investing in growth opportunities that align with the corporate strategy of investing in high quality assets.

Management has provided several briefings to the Board on the subject of corporate governance best practices relating to both executive and Non-Executive Director remuneration and updated the Company's compensation practices to better align these with the interests of Shareholders. Specific attention has been paid to guidance published by Institutional Shareholder Services, Inc. ("ISS") and Glass, Lewis & Co., LLC ("Glass Lewis") to ensure that our compensation philosophy continue to align with industry best practice. The Company has recently appointed Ernst & Young who will carry out a detailed compensation review during 2019.

In this year's executive compensation disclosure, we have been more specific in describing and disclosing how performance is measured, and how our performance compares against our peers. Specifically, the Company has explained the Board's approach to assessing performance for the purposes of determining our executives' compensation, as well as demonstrating the direct impact OceanaGold's performance has on executives' compensation. The Board believes it is important to give Shareholders a forum to provide feedback on our approach to executive compensation. Accordingly, the Shareholders of the Company are being asked to consider and, if thought advisable, to approve the Company's approach to executive compensation through the following non-binding advisory resolution:

"Be it resolved, on an advisory basis and not to diminish the role and responsibilities of the board of directors, that the shareholders accept the approach to executive compensation disclosed in the Company's management information circular delivered in advance of the 2019 annual general and special meeting of shareholders."

We recommend Shareholders vote **FOR** the advisory vote on our approach to executive compensation. Unless otherwise instructed, the named proxyholders will vote **FOR** the advisory resolution.

Given the vote is advisory in nature, it is therefore not binding on the Board. However, the Remuneration and Nomination Committee and the Board will consider the outcome of the vote and take Shareholders' feedback into account when considering future executive compensation.

The Company encourages its Shareholders to communicate with us directly in relation to any questions or comments on our executive compensation philosophy. You can write to the Chairman of the Remuneration and Nomination Committee by email at companysecretary@oceanagold.com or by mail to Level 14, 357 Collins Street, Melbourne, Victoria, Australia 3000.

Voting Exclusion Statement:

The Company will disregard any votes cast on this resolution by an executive of the Company and any of their associates. However, the Company need not disregard a vote if it is cast by a person (including the person chairing the meeting) appointed as proxy for a person who is entitled to vote, in accordance with the directions on the proxy form (provided the proxy form contains express instructions as to how to vote and it is not left to the discretion of the person casting the vote).

SECTION B – GENERAL COMPENSATION DISCUSSION AND ANALYSIS

i. OGC Compensation Philosophy

OceanaGold is focused on being the best gold mining company for employees, communities, regulators, business partners, the environment and investors. The Remuneration and Nomination Committee is responsible for reviewing and recommending to the Board compensation policies and programs, and resulting compensation levels and incentive award outcomes. The three pillars of our organisational compensation philosophy are:

- *Performance Oriented:* We are an organisation that rewards its workforce for achieving superior results.
- *Market Competitive:* We attract and retain high calibre talents by offering market competitive remuneration across the jurisdictions in which we operate.
- *Fiscally Responsible:* We are financially prudent and our compensation is commensurate with the financial performance of the company at any given time.

The Remuneration and Nomination Committee considers the implications of the risks associated with the Company's compensation policies and practices. As part of its role in overseeing the risk associated with executive compensation, the Remuneration and Nomination Committee reviews our compensation program to make sure they are aligned with our pay philosophy and strategy and that they encourage behaviours that drive sustainable long-term performance while discouraging excessive risk taking.

ii. Compensation Roles

The Board of Directors

The Board makes final decisions regarding executive compensation and is responsible for:

- reviewing and approving the remuneration of the CEO;
- determining the remuneration of the Non-Executive Directors; and
- approving executive incentive plans.

The Board makes these decisions after receiving and considering the advice and recommendations from the Remuneration and Nomination Committee. The Company Secretary is then charged with formalising the allocation of any incentive grants.

The Company's Board is currently comprised of six (6) independent Non-Executive Directors and one (1) executive director who is also the CEO.

The Remuneration and Nomination Committee

The role of the Remuneration and Nomination Committee is to review and make recommendations to the Board in respect of remuneration and nomination matters including:

- executive remuneration and incentive framework;
- executive cash and equity-based incentive plans;
- remuneration of Non-Executive Directors;
- incentive plans for Non-Executive Directors;
- recruitment, retention, performance measurement and termination policies and procedures for Non-Executive Directors;
- recruitment, retention, performance measurement and termination policies and procedures for executive management;
- planning for the succession of directors and executive officers;
- assessing the skills and competencies required on the Board; and
- establishing processes for the review of the performance of individual directors and the Board as a whole.

The Remuneration and Nomination Committee is responsible for determining the remuneration of the executive management (including the CEO's compensation package). Each year, the Remuneration and Nomination Committee undertakes an annual review process on executive remuneration and considers the advice from independent advisors and the business performance reported by the management. The Remuneration and Nomination Committee has recently appointed Ernst & Young who will carry out a detailed compensation review during 2019.

Each of the members of the Remuneration and Nomination Committee have direct experience on executive compensation enabling them to make decisions on the appropriateness of the Company's compensation policies and practices.

The Executive Management Team

The executive management team briefs the Remuneration and Nomination Committee as well as the Board of Directors on business performance, which enables the Remuneration and Nomination Committee and the Board to review and determine management performance.

The CEO makes recommendations to the Remuneration and Nomination Committee annually or on commencement of employment for the grant or otherwise of equity incentives to individual executives, having regard to overall Company performance and staff retention strategies. The quantum of any grant is determined by reference to an executive's position and is therefore comparable to allocations to other individuals holding positions of similar status. The CEO does not make recommendations on his own compensation packages.

The executive management team is currently comprised of nine (9) members, including the CEO.

iii. Compensation Elements

Non-Executive Directors' Compensation

Our Non-Executive Director compensation program is designed primarily to attract and retain talented individuals who have the requisite skills, knowledge and experience to discharge the duties expected of an individual acting in this capacity. The program is designed to:

- compensate directors to reflect the time commitment and responsibilities of the role;
- align the interests of directors with the interests of long-term Shareholders; and
- minimise the likelihood of short-term tenures and high turnover of directors.

The compensation paid to each Non-Executive Director is comprised of:

- an annual fixed director's fee;
- for membership on each committee of the Board, an annual fixed committee fee; and
- an annual Deferred Unit award through the Deferred Unit Plan.

Where a Non-Executive Director is required to travel more than 12 hours by air to attend an OGC Board meeting, the director is given a fixed US\$5,000 travel allowance. From time to time, when the Company is engaged in large corporate transactions and a special committee of the Board is formed, a committee fee may also be paid to the members of such special committee.

No portion of Non-Executive Director remuneration is option based. Notwithstanding the expiry of the Company's amended 2007 Stock Option Plan, which had an effective date of December 6, 2007 (the "Stock Option Plan"), there remain 33,333 options outstanding held by current Non-Executive Directors of the Company which continue to vest under the Stock Option Plan. **The Company has not issued any options under the plan since its expiry on June 4, 2013 and will not be issuing any new options under the Option Plan.**

Executive Management Compensation

The total compensation for the Company's executive management comprises both a fixed component and an at-risk component. The at-risk component is composed of short-term and long-term incentives. The Company does not provide for an executive retirement pension plan; however, the Company pays pension benefits to executive officers in accordance with the legislative requirements in relevant jurisdictions. The compensation program aims to ensure total remuneration is competitive by local market standards and links rewards with the short-term and long-term strategic goals and performance of the Company.

Specifically, the Company's compensation package for its executive management team consists of:

- a fixed base salary and associated retirement pension (superannuation);
- a variable short-term incentive, being an annual cash bonus;
- a variable number of long-term incentives, being performance share rights under the Company's Performance Rights Plan.

Base salaries are affected by factors particular to the individual, such as experience and level of responsibility, and by comparison to competitive salary levels of other publicly held mineral resource companies of comparable size and complexity.

Annual cash bonuses are used to reward executives for achievement of objectives during a fiscal year. The performance of the particular executive, as well as the Company's performance, is taken into consideration when determining whether a bonus will be paid, and the quantum of such bonus, with specific measurement criteria being established for each individual executive having regard to his or her primary responsibilities and objectives (with key objectives then generally linking to overall improvements in the Company's financial performance). Please refer to Section E for further information relating to executive performance metrics.

Lastly, the CEO makes recommendations to the Remuneration and Nomination Committee annually or on commencement of employment for the grant or otherwise of equity incentives to individual executives, having regard to overall Company performance and staff retention strategies. The quantum of any grant is determined by reference to an executive's position and is therefore comparable to allocations to other individuals holding positions of similar status. The Remuneration and Nomination Committee then considers such recommendations and, in exercising its discretion, awards grants to named individuals. The Company Secretary is then charged with formalising the allocation of such grants. Previous grants of equity-based awards are not necessarily taken into account when considering new grants.

The table below outlines the aggregate fees billed by each consultant or advisor, or any of its affiliates, for services related to determining compensation for any of the Company's directors and executive officers.

SECTION C – INCENTIVE PLAN AWARDS SUMMARY

i. Non-Equity (Cash Based) Schemes for Non-Executive Directors

(a) Deferred Unit Plan

In early 2016, the Company introduced the cash based Deferred Unit Plan (the “Deferred Unit Plan”) for Non-Executive Directors following a review of Board compensation by the independent consultant Mercer. The Deferred Unit Plan provides that participants are issued notional units that are economically equivalent to owning Common Shares of the Company (the “Deferred Units” or “DUs”). Each Deferred Unit has an initial value equal to the value of a Common Share at the time of grant. **No equity in the Company is issued pursuant to the cash based Deferred Unit Plan.** Given Shareholder approval of cash-based incentive plans is not required pursuant to the listing rules of the Toronto Stock Exchange (the “TSX”), the Deferred Unit Plan was formally adopted by the Company in February 2016 in order to better align the Company’s compensation practices with standards expected by its North American Shareholders. The terms of the cash based Deferred Unit Plan are summarised below in this section.

Pursuant to the Deferred Unit Plan rules, the Remuneration and Nomination Committee is charged with the administration of the plan and is responsible for making periodic recommendations to the Board as to the grant of DUs. DUs shall be granted by the Board in its sole discretion.

(i) Designated Participants

Pursuant to the Deferred Unit Plan, the Board of Directors of the Company may grant Deferred Units to Non-Executive Directors of the Company as part of the total compensation package for their services to the Company.

(ii) Grant

The Board will determine the date on which Deferred Units are to be granted, the number of Deferred Units to be granted and such other terms and conditions of all Deferred Units covered by any grant.

The Board currently intends to grant Deferred Units in the value of US\$50,000 on an annual basis to each of the NEDs. Pursuant to the Non-Executive Directors’ Deferred Unit Policy, Deferred Units shall be granted on the first trading day on the TSX of each calendar year.

(iii) Grant Limit

The aggregate number of Deferred Units that may be granted and remain outstanding under the Deferred Unit Plan shall not at any time, when taken together with Common Shares reserved for issuance pursuant to all of the Company’s security based compensation arrangements then either in effect or proposed, at any time be such as to result in the aggregate number of Deferred Units and Common Shares issuable or reserved for issuance to participants at any time exceeding 1% of the issued and outstanding Common Shares.

(iv) Dividends

Whenever cash dividends are paid on the Common Shares, additional Deferred Units will be credited to the holders of Deferred Units, calculated by dividing the total cash dividends that would have been paid by the market value on the trading day immediately after the record date for the dividend, rounded down to the next whole number of Deferred Unit.

(v) Redemption and Payment of Deferred Units

Deferred Units will be redeemable and the value thereof payable upon the earlier of: (a) the three year anniversary of the grant of a Deferred Unit; and (b) the date on which the holder ceases to be a member of the Board for any reason and is neither an employee nor a member of the Board or any corporation related to the Company (the “Triggering Date”). The Deferred Units will automatically redeem on the Triggering Date and the Company will make a cash payment equal to the market value of such Deferred Units as of the Triggering Date.

(vi) Amendment and Termination

The Board may suspend or terminate the Deferred Unit Plan at any time. The Board may amend, modify or terminate any outstanding Deferred Units, including, but not limited to, substituting another award of the same or of a different type or changing the date of redemption; provided, however, the holder's consent to such action shall be required unless the Board determines that the action, when taken with any related action, would not materially and adversely affect the holder or is specifically permitted by the Deferred Unit Plan.

ii. Equity Based Schemes for Management

The Company currently operates only one active equity-based compensation plan, being the Performance Rights Plan adopted by the Company as at June 15, 2012 and amended and restated on June 12, 2015 and June 1, 2018 ("Performance Rights Plan"). This is the only incentive scheme under which the Company makes equity-based grants to management. The Company's Option Plan expired on June 4, 2013. Notwithstanding the expiry of the Option Plan, a number of options remain outstanding and continue to vest under the Option Plan. No options have been granted under the Option Plan since 2012. Furthermore, as part of the Company's acquisitions of Romarco Minerals Inc. ("Romarco") in 2015, and Pacific Rim Mining Corp. ("Pacific Rim") in 2013, certain options under the existing stock option plans of those companies became exercisable into Common Shares of the Company. Nil options remained outstanding under the Pacific Rim Incentive Stock Option Plan. No new options have been, or will be granted under these plans. The terms of the equity-based plans are summarised below in this section.

The following table provides certain information with respect to the Company's equity compensation plans as of December 31, 2018

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by securityholders	13,107,740	0.02	21,934,325
Equity compensation plans not approved by securityholders	281,991*	1.86*	n/a
Total	13,389,731*	0.06*	21,934,325

*Securities disclosed relate to options previously granted by Romarco pursuant to the Romarco Plan (as defined below), which became exercisable for Common Shares of the Company following the Romarco Plan of Arrangements, with both of the volume and weighted-average exercise price of such options having been converted at the ratio of 0.241 of a Common Share for each option.

The total number of Common Shares issuable or reserved for issuance to designated participants pursuant to the Performance Rights Plan at any time is not to exceed 3.3% of the issued and outstanding Common Shares when taken together with all of the Company's security-based compensation arrangements then either in effect or proposed.

As of December 31, 2018, a total of 185,729 options remained outstanding under the Option Plan, representing approximately 0.03% of the issued and outstanding common shares on a non-diluted basis, 12,922,011 rights remained outstanding under the Performance Rights Plan, representing 2.09% of the issued and outstanding common shares on a non-diluted basis, and 281,991 options remained outstanding under the Romarco Replacement Stock Option Plan, representing approximately 0.05% of the issued and outstanding common shares on a non-diluted basis. Together, they represent approximately 2.16% of the issued and outstanding Common Shares on a non-diluted basis.

As of December 31, 2018, an aggregate of 618,623,496 Common Shares of the Company were issued and outstanding, 3.3% of which is 20,414,575 Common Shares of the Company which would be available for issue under all of the Company's current incentive plans.

As of the date of this Circular, an aggregate of 622,275,034 Common Shares of the Company were issued and outstanding, a total of 33,333 options remained outstanding under the Option Plan, 12,372,494 rights remained outstanding under the Performance Rights Plan, and 165,722 options remained outstanding under the Romarco Replacement Stock Option Plan.

Accordingly, a total of 7,963,527 rights remain available for grant under the Performance Rights Plan, being the only operating equity incentive plan as at the date of this Circular (representing approximately 1.28% of the issued and outstanding Common Shares on a non-diluted basis as of the Record Date).

(a) Performance Share Rights Plan

At the annual general and special meeting of shareholders of OceanaGold held on June 1, 2018 (being the sixth anniversary of the implementation of the Performance Rights Plan), the Company adopted the amended and restated Performance Rights Plan, which is designed to promote further alignment of interests between the designated participants under the Performance Rights Plan and Shareholders of the Company. The Board has delegated to the Remuneration and Nomination Committee such administrative duties and powers required to administer the Performance Rights Plan.

The Performance Rights Plan authorizes the Board of Directors to grant performance share rights ("Performance Rights") to designated participants on the following terms:

1. *Designated Participants*

Pursuant to the Performance Rights Plan, the Board of Directors of the Company may grant Performance Rights to employees of the Company or an affiliate of the Company in consideration of them providing their services to the Company or the affiliate. Non-employee directors of the Company are not designated participants under the Performance Rights Plan and therefore cannot participate in grants thereunder.

2. *No Hedging*

Under the rules of the Performance Rights Plan, Designated Participants are not permitted to enter into transactions which limit the economic risk, or hedge or offset a decrease in the market value of performance rights which have not vested.

3. *Number of Performance Rights Available for Issuance*

Under the Performance Rights Plan, the number of Common Shares that may be issued on the redemption of Performance Rights that have been granted and remain outstanding under the Performance Rights Plan may not at any time, when taken together with all of the Company's security-based compensation arrangements then either in effect or proposed, be such as to result in:

- (i) the number of Common Shares reserved for issuance to any one designated participant exceeding 3.3% of the issued and outstanding Common Shares;
- (ii) the issuance to any one designated participant, within a one-year period, of a number of Common Shares exceeding 3.3% of the number of issued and outstanding Common Shares;
- (iii) the number of Common Shares issuable or reserved for issuance to designated participants at any time exceeding 3.3% of the issued and outstanding Common Shares;
- (iv) the number of Common Shares issuable or reserved for issuance to insiders at any time exceeding 3.3% of the issued and outstanding Shares; and
- (v) the number of Common Shares issued to insiders within a one-year period exceeding 3.3% of the number of issued and outstanding shares.

The number of issued and outstanding Common Shares determined above shall be on a non-diluted basis.

4. *Value of Performance Rights*

Performance Rights granted to designated participants from time to time will be denominated in Common Shares on the TSX, or as CDIs on the ASX (representing Common Shares). The market value of Performance Rights and Common Shares shall be not less than the volume weighted average trading price (calculated in accordance with the rules and policies of the TSX) of the Common Shares on the TSX, or another stock exchange where the majority of the trading volume and value of the Common Shares occurs, for the ten (10) trading days immediately preceding the day the Performance Right is granted.

5. *Grant*

The Company intends to grant Performance Rights that are commensurate with an individual's level of responsibility within the Company. The Remuneration and Nomination Committee will have sole discretion to determine the number of Performance Rights to be granted.

6. *Vesting*

Performance Rights granted to designated participants from time to time will generally vest based upon the Company's target milestone for the applicable performance period, in accordance with the vesting schedule established by the Board at the time of grant.

Target milestones shall be determined by the Board, acting reasonably, and shall be based on a comparison over a medium to long term performance period (e.g. 3 years) of the total shareholder return ("TSR") of the Company's Common Shares relative to the TSR over the same period of the shares of a peer group of companies (of comparable size of market capitalization and production rates) to be established by the Board, acting reasonably, at the time of grant of the Performance Rights. For the year 2019, this peer group consists of 27 gold producers excluding OceanaGold, as follows:

Kinross Gold Corp.	Alamos Gold Inc.	Kirkland Lake Gold Ltd
St Barbara Limited	IAMGOLD Corp.	Regis Resources Ltd
Yamana Gold Inc.	Coeur Mining Inc.	Saracen Mineral Holdings Ltd
Detour Gold Corp	New Gold Inc.	Alacer Gold Corp
Gold Fields Ltd	Sibanye - Stillwater	Guyana Goldfields Inc.
B2Gold Corp.	Northern Star Resources Ltd	Harmony Gold
Evolution Mining Ltd	Centerra Gold Inc.	Endeavour Mining Corporation
Eldorado Gold Corp	SSR Mining Inc	Torex Gold Resources Inc.
Hecla Mining Co.	SEMAFO Inc.	Pretium Resources

The peer group above was selected based on a number of criteria, including place of incorporation, place of material operations, complexity of operations and market capitalisation to ensure that the selected companies were compatible in nature.

Vesting to commence when the Company outperforms 50% of the peers in the group in accordance with the following schedule:

OGC TSR Ranking in Peer Group	% of Performance Rights Vesting	OGC TSR Ranking in Peer Group	% of Performance Rights Vesting
1	100%	8	71%
2	96%	9	67%
3	92%	10	63%
4	88%	11	59%
5	84%	12	54%
6	79%	13	50%
7	75%	14 and below	0%

Accordingly, the actual number of Performance Rights that will vest at the end of the applicable performance period will depend on the performance of the Company over that period when compared to its peer group. If the Company significantly underperforms relative to the peer group, no vesting of Performance Rights may take place. From time to time, the Remuneration and Nomination Committee will make grants with special vesting conditions in accordance with the Performance Rights Plan.

7. *Termination, Retirement and Other Cessation of Employment*

Generally, if a designated participant ceases employment as a "good leaver", which includes death, retirement or a disability preventing him/her from carrying out his employment, or termination without cause or by mutual agreement during a performance period (each, a "good leaver"), the Performance Rights granted to the designated participant from time to time shall continue to vest in accordance with the vesting schedule established by the Board of Directors at the time of grant and as set out in a written acknowledgement between the Company and the designated participant.

8. *Expiry*

Vested Performance Rights granted to designated participants shall be redeemed on the last day of the performance period (or such earlier date in the case of vested Performance Rights that are redeemable immediately upon the achievement of target milestones).

The Performance Rights are redeemable through the issue of Common Shares only, equal to the number of vested Performance Rights. If a designated participant is terminated “for cause” or ceases employment and is not considered to be a “good leaver”, the designated participant is not entitled to any benefits on account of Performance Rights relating to the performance period in which such designated participant’s employment terminates. The Board of Directors, in its discretion, has the ability to accelerate the vesting of Performance Rights upon the occurrence of a Change in Control (as defined under the Performance Rights Plan).

9. *Performance Period*

The Board of Directors, in its sole discretion, will determine the performance period applicable to each grant of Performance Rights. If no specific determination is determined by the Board, the performance period will commence on the January 1 coincident with or immediately preceding the grant and end on December 31 of the third year following the calendar year in which such Performance Rights were granted. If a performance period ends during, or within five business days after, a trading black-out period imposed by the Company to restrict trades in the Company’s securities, then, notwithstanding any other provision of the Performance Rights Plan, the performance period shall end 10 business days after the trading black-out period is lifted by the Company.

10. *Transferability*

The Performance Rights will not be transferable or assignable other than by will or pursuant to the laws of succession, except that the designated participant may assign Performance Rights granted under the Performance Rights Plan to the designated participant’s spouse, a trustee, custodian or administrator acting on behalf of or for the benefit of the designated participant or the designated participant’s spouse, a personal holding corporation, partnership, trust or other entity controlled by the designated participant or the designated participant’s spouse, or a registered retirement income fund or a registered retirement savings plan of the designated participant or the designated participant’s spouse.

11. *Amendment Provisions*

No amendments to the following matters may be made by the Board without Shareholder approval:

- (i) amend the Performance Rights Plan to increase the number of shares reserved for issuance under the Performance Rights Plan,
- (ii) amend any Performance Rights granted under the Performance Rights Plan to extend the termination date beyond the original expiration date (for both insider and non-insider grants), except in certain circumstances where the Company has imposed a trading blackout, as described in paragraph 9,
- (iii) increase the number of Common Shares issuable under the Performance Rights Plan to non-employee directors,
- (iv) amend the amendment provisions of the Performance Rights Plan, and
- (v) amend provisions setting out insider participation limits of the Performance Rights Plan, and the non-assignability on the grant of performance rights.

No amendment, suspension or discontinuance of the Performance Rights Plan or of any granted Performance Rights may contravene the requirements of the TSX or any securities commission or regulatory body to which the Performance Rights Plan or the Company is subject, or any other stock exchange on which the Company or its Common Shares may be listed from time to time.

Subject to the restrictions in the preceding paragraph and the requirements of the TSX, the Board may, in its discretion, and without obtaining Shareholder approval, amend, suspend or discontinue the Performance Rights Plan, and amend or discontinue any Performance Rights granted under the Performance Rights Plan, at any time. Without limiting the foregoing, the Board may, without obtaining Shareholder approval, amend the Performance Rights Plan, and any Performance Rights granted under the Performance Rights Plan, to:

- (i) amend the vesting provisions,
- (ii) amend the target milestones,

ii. Performance Metrics of Executive Incentives

Short-Term Incentive – Annual Cash Bonus

The determination of short-term incentive awards for executives is heavily influenced by the performance of the Company in achieving key performance indicators (“KPIs”) set at the beginning of each year.

The award of any short-term incentive to an executive is dependent on three factors: (a) the bonus entitlement as a percentage of the executive's total fixed remuneration (“TFR”); (b) the Company's achievement of the corporate KPIs and level of achievement which

can range from 0% to 140%; and (c) the executive's achievement of divisional KPIs and level of achievement which can range from 0% to 140%. For the 2018 fiscal year, these factors were allocated as follows for the relevant executives:

$$\text{Bonus (\$)} = \text{TFR (\$)} \times \text{Bonus Target} \times [(\text{Corporate Score} \times \text{Weighting}) + (\text{Divisional Score} \times \text{Weighting})]$$

Executive	Bonus Target (as a % of TFR)	Weighting	
		Corporate KPIs	Divisional KPIs
Chief Executive Officer	90%	60%	40%
Other executives	60%	40%	60%

For the year ended December 31, 2018, the bonus entitlement was 90% of TFR for the CEO and 60% for the other executives.

Corporate KPIs contain a fixed category of indicators that the Company assesses itself against on an annual basis. The divisional KPIs typically contain a set of five (5) indicators, designed to mirror key performance targets that the Company is targeting to achieve for a particular year.

For the year ended December 31, 2018, the Corporate KPIs were:

Category	Description
(i) Safety	OGC group total recordable injury frequency rate ("TRIFR") per million hours, calculated by taking the total number of injuries or events divide by the number of hours worked by all employees (man hours), and then multiply by one million. This provides a rate where events and injuries can be measured equally across the Company.
(ii) Environment	Environmental incidents of level 3 or above, being: <ul style="list-style-type: none"> measurable environmental impact contained on relevant site or low environmental impact off Site requiring clean up and remediation efforts of 7 or more days; measurable long-term environmental impacts on-site or off-site outside of approved environmental impacts; any breach of regulatory requirement that has potential to cause environmental harm or prosecution, including repeated no-impact, non-compliances; non-compliance event that is likely to generate investigation by a regulator including repeated no-impact non-compliances; or non-compliance events resulting in likely or almost certain prosecution, and regulator intervention.
(iii) Cashflow	Normalised free cash flows, calculated by taking the normalised gold sales revenue less normalised all-in sustaining costs ("AISC") and net of normalised by-products credits. Normalised gold sales revenue consisted of reported gold sale adjusted for budgeted gold price. Normalised AISC is reported AISC calculated per the World Gold Council ("WGC") methodology adjusted for budgeted exchange rate. The normalised by-products credits are the reported copper and silver sales adjusted for budgeted copper and silver prices.
(iv) TSR	Total Shareholder Return for the year between the first and last trading day of a given calendar year, measured against peer group of companies selected at the start of the year.

For the year ended December 31, 2018, the target and actual Corporate KPIs were:

Category	2018 Target	2018 Actual	Outcome (%)
(i) Safety	Between 3.4 and 3	4.50	0
(ii) Environmental	0	0	100
(iii) Cashflow	US\$227.8m	US\$227.24m	100
(iv) TSR	Ranked above 75th percentile	Ranked above 75th percentile	100

Long-Term Incentive – Performance Share Rights

The executives of the Company are eligible to participate in the OceanaGold Performance Rights Plan. Further information relating to the operation of the Performance Rights Plan can be found at [Section C \(Incentive Plan Awards Summary\)](#). In summary, the vesting of Performance Rights, if any, is solely dependent on the total share return of the Company as compared to its peer group over a period of three years. At the beginning of the fourth year, the Company assesses its TSR performance and the Remuneration and Nomination Committee will determine whether vesting should occur. If the Company significantly underperforms relative to the peer group, then no vesting of Performance Rights may take place and all Performance Rights granted at the start of year one will be forfeited. Vesting commences when the Company outperforms 50% of the peers in the peer group, and escalates as the total Shareholder return performance advances. Accordingly, there is no certainty that any Performance Rights awarded to an executive (or any other employees) will vest. The Board believes this incentive scheme is ideally structured to align the medium to long term interest of the management with that of the Shareholders, and to drive longer term performance of the Company.

In 2018, the number of grants which the CEO and executives are eligible to receive are up to 300% and 200% of base salary, respectively.

Pension Plan Benefits

The Company does not have any defined benefit plans. The majority of the Company's NEOs are residents of Australia for the purposes of taxation. In Australia, employers are required to make a payment known as a "superannuation guarantee" to a complying fund on behalf of employees. The minimum contribution is currently mandated at 9.5% of an employee's base salary but are capped at A\$25,000 annually. The complying funds are nominated by the employees and are not administered by OceanaGold. The superannuation guarantee payments made on behalf of the Company's NEOs in 2018 are A\$25,000 for each of the NEOs.

Employment Agreements – Termination and Change of Control Benefits

Each of the current Named Executive Officers (NEO) has a formal employment agreement with the Company or a wholly-owned subsidiary of the Company.

In February 2016, the Company applied for, and has obtained a number of waivers in relation to the ASX Listing Rules, including Listing Rule 10.18 with respect to the prohibition of termination payments to the executive officers on change of control. Notwithstanding this, the Company does not intend to avail itself to the benefit of the waiver and as a result, no NEO has a specified change of control provision in his or her employment agreement.

Nevertheless, NEOs are entitled to certain severance entitlements as detailed below (with such entitlements potentially triggered as an indirect consequence of a change of control of the Company). In addition to this, the Remuneration and Nomination Committee may accelerate the vesting of equity-based awards to NEOs upon a change of control.

Michael Wilkes: Mr. Wilkes commenced as CEO of the Company on January 17, 2011. Mr Wilkes' annual base salary in 2018 was A\$813,700 with an additional amount of 90% of TFR payable as an annual bonus based on achieving annual performance targets as may be determined by the Remuneration and Nomination Committee. Mr. Wilkes receives employer superannuation contributions to the value of A\$25,000 per year. Mr Wilkes is entitled to be given six (6) months' written notice of termination. He may be required to serve the notice period on an active or passive basis, or payment may be made to him in lieu of all or part of the notice period based upon his annual total remuneration on termination. Mr. Wilkes must give six (6) months' notice of resignation.

Commencing January 1, 2017, if Mr Wilkes' employment is terminated by reason of "redundancy", the Company must pay a severance equal to two (2) years of gross fixed annual remuneration at the time of termination plus two (2) times the target annual performance bonus payable in respect of the year in which the employment is terminated. "Redundancy" includes, among other matters (i) a substantial diminution in the duties and responsibilities of the position or a material reduction in the status of the position, whether as a result of an addition to or reduction of duties and responsibilities; (ii) a substantial diminution in the scale of the business to which the duties and responsibilities of the position apply; or (iii) a material reduction in base salary or bonus opportunity or in the kind or level of the benefits.

If Mr. Wilkes had been terminated, other than for cause, as of December 31, 2018, Mr. Wilkes would have been entitled to receive an estimate of A\$603,292 in termination and statutory payments. If Mr. Wilkes had been terminated as a result of redundancy as of December 31, 2018, Mr. Wilkes would have been entitled to receive an estimate of A\$3,371,002 in redundancy and statutory payments.

Scott McQueen: Mr. McQueen initially joined the Company in November 2016, and was subsequently appointed as Chief Financial Officer of the Company on July 3, 2017. Mr McQueen's annual base salary in 2018 was A\$436,000 with an additional amount of 60% of fixed annual remuneration payable as an annual bonus based on achieving annual performance targets as may be determined by the Remuneration and Nomination Committee. Mr. McQueen receives employer superannuation contributions to the value of A\$25,000 per year. Mr. McQueen is entitled to be given six (6) months' written notice of termination. He may be required to serve the notice period on an active or passive basis, or payment may be made to him in lieu of all or part of the notice period based upon his annual total remuneration on termination. Mr. McQueen must give three (3) months' notice of resignation. In the case of a termination by reason of redundancy, provisions identical to those in the employment of Mr. Wilkes will apply.

If Mr. McQueen had been terminated, other than for cause, as of December 31, 2018, Mr. McQueen would have been entitled to receive an estimate of A\$259,888 in termination and statutory payments. If Mr. McQueen had been terminated as a result of redundancy as of December 31, 2018, Mr. McQueen would have been entitled to receive an estimate of A\$1,504,588 in redundancy and statutory payments.

Michael Holmes: On November 7, 2012, Mr. Holmes was appointed Chief Operating Officer of the Company. Mr Holmes' annual base salary in 2018 was A\$560,000 with an additional amount of 60% of fixed annual remuneration payable as an annual bonus based on achieving annual performance targets as may be determined by the Remuneration and Nomination Committee. Mr. Holmes receives employer superannuation contributions to the value of A\$25,000 per year. Mr. Holmes is entitled to be given six (6) months' notice of termination. In the event of his termination, other than by reason of redundancy or for cause (in which case no severance is payable), he is entitled to receive six (6) months' gross fixed annual remuneration on such termination. He may be required to serve the notice period on an active or passive basis, or payment may be made to him in lieu of all or part of the notice period based upon his annual total remuneration on termination. Mr. Holmes must give three (3) months' notice of resignation. In the case of a termination by reason of redundancy, provisions identical to those in the employment contract of Mr. Wilkes will apply.

If Mr. Holmes had been terminated, other than for cause, as of December 31, 2018, Mr. Holmes would have been entitled to receive an estimate of A\$329,939 in termination and statutory payments. If Mr. Holmes had been terminated as a result of redundancy as of December 31, 2018, Mr. Holmes would have been entitled to receive an estimate of A\$1,909,439 in redundancy and statutory payments.

Mark Cadzow: Mr. Cadzow initially joined the Company in April 1991. Mr. Cadzow was appointed as Chief Operating Officer of the Company on October 4, 2010 and was subsequently appointed as Chief Development Officer on August 1, 2012. Mr Cadzow's annual gross salary and remuneration during 2018 was NZ\$589,943 with an additional amount of up to 60% of base salary payable by way of annual bonus based on achieving specific performance targets as may be determined by the Remuneration and Nomination Committee. Mr. Cadzow is entitled to be given six (6) months' notice of termination. In the event of his termination, other than by reason of redundancy or for cause (in which case no severance is payable), he is entitled to receive six (6) months' gross fixed annual remuneration on such termination. Mr. Cadzow may be required to serve the notice period on an active or passive basis, or payment may be made to him in lieu of all or part of the notice period based upon his annual total remuneration on termination. Mr. Cadzow must give three (3) months' notice of resignation. In the case of a termination by reason of redundancy, provisions identical to those in the employment contract of Mr. Wilkes will apply.

If Mr. Cadzow had been terminated, other than for cause, as of December 31, 2018, Mr. Cadzow would have been entitled to receive an estimate of NZ\$486,803 in termination and statutory payments. If Mr. Cadzow had been terminated as a result of redundancy as of December 31, 2018, Mr. Cadzow would have been entitled to receive an estimate of NZ\$2,227,876 in redundancy and statutory payments.

Craig Feebrey: On November 2, 2015, Mr. Feebrey was appointed as Head of Exploration of the Company. Mr Feebrey's annual base salary in 2018 was A\$378,750 with an additional amount of 60% of fixed annual remuneration payable as an annual bonus based on achieving annual performance targets as may be determined by the Remuneration and Nomination Committee. Mr. Feebrey must give three (3) months' notice of resignation. In the case of a termination by reason of redundancy, provisions identical to those in the employment contract of Mr. Wilkes will apply.

If Mr. Feebrey had been terminated, other than for cause, as of December 31, 2018, Mr. Feebrey would have been entitled to receive an estimate of A\$246,248 in termination and statutory payments. Matters that are beyond the scope of those limitations require Board approval.

The position descriptions for the Chairman and the chair of each board committee, and the CEO are set out in the Board Charter. A copy of the Board Charter is set out in Annexure A and is also available on the Company's website at www.oceanagold.com/about-us/governance.

- consider the level of representation of women on the Board.

The Board is committed to ensuring that diversity at Board and senior management levels is actively pursued. While the Diversity Policy and Standard does not currently establish any fixed targets regarding the representation of women on the Board or in senior management positions, the Board will consider the merits of establishing diversity targets going forward. The ultimate decision will be made based on the merit, skills, wisdom and contribution that the selected candidates can demonstrate. The Company notes that it has been purposely considering the benefits of diversity (including gender diversity) in recent Board and senior management selection processes. The Company's diversity strategy is to place emphasis on promoting diversity at all levels, to adopt measurable objectives to achieving diversity, and to track the achievement of these objectives. The OceanaGold Diversity Committee was established to support and oversee the implementation of the OceanaGold's diversity and inclusion strategy. - Remuneration and Nomination Committee; and
- Sustainability Committee.

Each Committee is governed by a formal charter approved by the Board, documenting the Committee’s composition and responsibilities. Copies of these charters are available from the Company’s website.

The Board believes that all directors should attend all meetings of the Board and all meetings of each Committee of which a director is a member. Directors are invited to, and often attend Committee meetings on which they are not a member of. The Committee is further described below at section 2.1.

At the beginning of each year, performance objectives in the form of KPIs are set for the management for the ensuing year. These KPIs are periodically assessed throughout the year and then formally reviewed at the end of the year. Short term incentives and adjustments to annual remuneration are then awarded based on individual performance against KPIs as well as the overall performance of the company.

1.8 Minimum share ownership

The Company's Non-Executive Directors or executive management are not presently subject to minimum share ownership guidelines. However, this is a matter the Company intends to review as part of its ongoing initiative to implement industry best corporate governance practices moving forward. In any event, the Company notes that all but the most recently appointed Non-Executive Director hold shares in the Company.

PRINCIPLE 2 – STRUCTURE THE BOARD TO ADD VALUE

2.1 Remuneration and Nomination Committee

The **Remuneration and Nomination Committee** is responsible for reviewing and making recommendations to the Board in respect of:

- recruitment, retention, remuneration, performance management and termination policies and procedures for non-executive directors, the CEO and any other executive director, the Company Secretary and all senior executives reporting directly to the CEO;
- reviews the composition of the Board to ensure it has an appropriate number of independent directors and the skills and competencies required and the extent to which those skills are represented on the Board;
- maintains an evergreen list of potential nominees and considering nominees for independent directors of the Company;
- ensures appropriate selection process for new board candidates is in place and makes recommendation to the Board for the nomination of candidates to the Board;
- establishing processes for the review of the performance of individual directors, Board committees and the Board as a whole;
- planning for the succession of directors and executive officers of the Company to ensure that the Board and management have appropriate skill and experience; and
- identifies needs of the Board with the help of a skills and experience assessment, and diversity analysis, matching this to the list of continuously refreshed list of potential nominees.

The Remuneration and Nomination Committee Charter includes the:

- key elements of the performance evaluation process;
- appointment letter used by the Company to appoint new directors and inform new directors of their roles and responsibilities; and
- induction procedures and policies for new directors (including procedures for briefing new directors on the Company, its business and the gold industry in general).

The Remuneration and Nomination Committee is required to meet at least twice a year and to report to the Board following each meeting. The Company Secretary is also the secretary of the Remuneration and Nomination Committee.

As of the date of this Management Information Circular, the Remuneration and Nomination Committee members are:

- Jim Askew (Chairman);
- Nora Scheinkestel; and
- Paul B Sweeney.

Each member of the Remuneration and Nomination Committee is currently independent within the meaning of National Instrument 52-110 – Audit Committees (“NI 52-110”). Furthermore, the Board considers that the skills, experience and independence of the current Remuneration and Nomination Committee members allow the Remuneration and Nomination Committee to discharge its functions in accordance with the Principles. Further, the Remuneration and Nomination Committee is authorised by the Remuneration and Nomination Committee Charter to access professional advice from employees of the Company and from appropriate external advisors.

A copy of the Remuneration and Nomination Committee Charter is available on the Company’s website at www.oceanagold.com/about-us/governance.

2.2 Skills Matrix

As at December 31, 2018, the Board was comprised of five Non-Executive Directors and one executive director (CEO), which provides an appropriate mix of business and specialist skills and qualifications. The Board considers that a diverse range of skills, experience and backgrounds is required on the Board to effectively govern the business. It determines and reviews from time to time the mix of skills and diversity that it looks to achieve in its membership. Having regard to the nature of the Company’s business, that mix includes financial, strategic, operational, regulatory and mining engineering, predominantly in precious and base metals.

The Board recently adopted a skills matrix which it will use as a tool to assess the skills and experience of current directors, and those which the Board considers complement its capacity to carry out its functions and discharge its duties.

2.3 Director Independence

The Board Charter requires the Board to assess the independence of the Company’s directors by reference to the requirements published by the Canadian Securities Administrators and the ASX Corporate Governance Council as such rules are replaced, updated or revised from time-to-time. This includes the independence requirements set out in NI 52-110 and the Principles.

These criteria are considered subject to the materiality thresholds set by the Board from time to time. In the case of service providers or similar, the general standard for materiality is that the fees to the provider from the Company do not represent more than 5% of the firm’s total fees, nor more than 5% of the Company’s total spend, in the relevant area and the relevant director does not receive any remuneration directly related to the Company’s use of the firm (e.g. ‘finder’s fee’). The Board may determine a director to be independent so long as the director retains the ability and willingness to operate independently and objectively and to challenge the Board and management, notwithstanding the existence of a relationship listed in the Principles.

2.4 Majority of the Board Independent

With the exception of Mr Wilkes, all other directors were independent having regard to the standards used as a reference benchmark as aforementioned and the definition under NI 52-110. Accordingly, during the Company’s 2018 financial year the Board comprised a majority of independent, non-executive directors.

Mr Wilkes is the President and Chief Executive Officer of the Company. From time to time, the independent directors of the Company hold close sessions following a Board meeting at which non-independent directors and members of management are not in attendance. In 2018, the independent directors held 4 closed sessions at which non-independent directors and members of management are not in attendance.

2.5 Separate Individuals as Chair and CEO

The current CEO is Mr. Michael Wilkes, and as disclosed above, the current Chairman is Mr. James E. Askew. Following Mr. Askew’s retirement at this Meeting, Mr. Ian M Reid will be appointed as the new Chairman of the Company. Both Mr. Askew and Mr. Reid are independent non-executive directors according to the definition under NI 52-110. As recommended by the Corporate Governance Council, the Company maintains the separation of these roles and they are performed by different individuals.

The roles of the Chairman of the Board and the CEO of the Company are segregated to ensure their respective independence, accountability and responsibility. The Chairman ensures the Board’s effective performance of its functions, including compliance with good corporate governance practices, and encourages and facilitates active contribution of Directors in Board activities. Directors with different views are encouraged to voice their concerns. They are allowed sufficient time for discussion of issues so as to ensure that Board decisions fairly reflect Board consensus. The Chairman also ensures that all Directors are properly briefed on issues arising at

Board meetings and have received in a timely manner, adequate information, which must be accurate, clear, complete and reliable. The CEO, supported by the executive management committee, takes the lead in formulating Oceana's overall strategies and policies, and is responsible for managing day-to-day operations of Oceana and executing the strategies adopted by the Board. The CEO is also accountable to the Board for the implementation of Oceana's overall strategies, and coordination of overall business operations.

2.6 Director Induction

All new directors receive induction training and the Remuneration and Nomination Committee is responsible for overseeing the director induction process in accordance with the Remuneration and Nomination Committee Charter which is available on the Company's website.

Directors are entitled to seek independent professional advice, at the Company's expense, to assist them in fulfilling their responsibilities, subject to obtaining the prior approval of the Chairman. Directors are made aware of their responsibility to keep themselves up to date with best director and corporate governance practices and are encouraged and funded to attend seminars that will increase their own and the Board's effectiveness.

PRINCIPLE 3 – ACT ETHICALLY AND RESPONSIBLY

3.1 Codes of Conduct

The Company has both a Corporate Code of Conduct and a Directors' Code of Conduct which seek to foster high standards of ethics and accountability among directors, employees and contractors in carrying out the Company's business. These Codes provide guidance on a variety of matters such as expected standards of behaviour, confidentiality, securities dealing, public statements, use of Company property, conflicts of interest and financial reporting. These codes are available on the Company's website at www.oceanagold.com/about-us/governance.

The Corporate Code of Conduct and a Directors' Code of Conduct are supplemented by formal policies and procedures in relation to matters such as health and safety, anti-corruption, environment and community, discrimination, harassment and bullying, diversity and equal opportunity and investor relations. The Board monitors compliance with the Code of Conduct through internal auditing and implementation of various measures including the gifts register, safety records tracking and environmental records monitoring.

Specific issues of note are summarised below:

Directors' conflicts of interest - directors of the Company must keep the Board advised, on an ongoing basis, of any material personal interest in a matter that relates to the affairs of the Company. Where a director has a material personal interest in a matter, the director concerned will absent himself from Board discussions of the matter and will not cast a vote in relation to the matter; and

Securities Trading Policy - the Company's comprehensive securities dealing policy applies to all directors, employees and contractors. The policy prohibits trading in the Company's securities by directors, employees or contractors at any time when they are in possession of price sensitive information that is not generally available to the market. In addition, the policy places a total embargo on short term trading by directors and senior employees at all times. The policy further identifies "blackout" periods where directors and senior management are embargoed from dealing in the Company's securities. An internal disclosure procedure applies to directors and senior employees wishing to buy or sell Company securities or exercise options over Company securities. Directors also have specific disclosure obligations under laws and regulations applicable in Australia and Canada.

The latest Securities Trading Policy is available on the Company's website at www.oceanagold.com/about-us/governance.

Protected Disclosures ("Whistleblower") Policy - The Whistleblower Policy is available to all OceanaGold employees regardless of role or seniority. Individuals dealing in any capacity with the Company, such as agency workers and contractors, are also encouraged to use it. The Whistleblower Policy describes the procedure for receiving, investigating and addressing allegations of serious wrongdoing on the part of OceanaGold and its related entities, its directors, officers and employees or its independent auditors. This Whistleblower Policy applies to disclosures by any person within or outside of OceanaGold, including directors and officers, full and part-time staff, former employees, seconded personnel, contractors and members of the community.

The purpose of the policy is to promote open communication throughout the Company, develop practices that reduce the risk of serious wrongdoing within OceanaGold and safeguard the reputation, values and ethics of the company by:

- a) protecting any person who, in good faith, raises concerns about serious wrongdoing;
- b) protecting employees and the company from the consequences of inappropriate allegations; and
- c) ensuring allegations of serious wrongdoing are properly investigated and addressed.

Anti-Bribery and Anti-Corruption Policy - The Company has developed and will implement a structured Anti-Bribery and Anti-Corruption Compliance program which consists of a combination of training and risk-based preventive and detective tools to be

executed throughout the organisation. The Company's Anti-Bribery and Anti-Corruption Policy and its related Standard prohibits all forms of bribery or corrupt practices, either directly or indirectly on the Company's behalf to advance its business interests or those of its associates.

The Board also encourages a culture of ethical business conduct and integrity through its formal meetings and informal discussions with management. The Board believes that a strong and consistent tone from the top from the management team regarding the importance of acting ethically in how we conduct our business promotes an ethical culture as well as appropriately monitoring the activities of our employees and applicable third parties to ensure compliance.

PRINCIPLE 4 – SAFEGUARD THE INTEGRITY OF REPORTING

4.1 Audit Committee

The Company has established an Audit and Financial Risk Management Committee to oversee financial reporting and safeguard integrity of the financial reports and the reporting process.

In accordance with the requirements of NI 52-110, the Audit and Financial Risk Management Committee is structured so that it:

- has at least three members;
- consists only of non-executive directors;
- consists only of independent directors; and
- is chaired by an independent non-executive director, who is not chair of the board.

This is in line with the Principles.

The **Audit and Financial Risk Management Committee's** primary responsibility is to oversee the Company's financial reporting process, financial risk management systems and internal control structure. It also reviews the scope and quality of the Company's external audits and makes recommendations to the Board in relation to the appointment or removal of the external auditor.

The members of the Audit and Financial Risk Management Committee during 2018 were:

- Paul B Sweeney (Chairman);
- Ian M Reid; and
- Geoff W Raby.

Each member of the Audit and Financial Risk Management Committee is independent and financially literate within the meaning of NI 52-110.

The Board considers that the skills, experience and independence of the current Audit and Financial Risk Management members allow the Committee to discharge its functions in accordance with the Principles. Further, the Committee is authorised by the Audit and Financial Risk Management Committee Charter to retain, at the Company's expense, outside counsel, consultants or advisors.

For additional information on the Audit Committee, please see the section titled "Corporate Governance and Board Committees in the Company's Annual Information Form dated March 29, 2019 which has been filed with the Canadian securities regulatory authorities and is available for review electronically from SEDAR at www.sedar.com under the Company's profile.

A copy of the Audit and Financial Risk Management Committee Charter is available on the Company's website at www.oceanagold.com/about-us/governance.

For more information on the Audit and Financial Risk Management Committee, please see "Corporate Governance and Board Committees" section of the Company's Annual Information Form which is available at www.sedar.com under the name "OceanaGold Corporation".

4.2 CEO and CFO Certifications as to Financial Statements

The Board requires the CEO and Chief Financial Officer to certify in writing, on an annual basis, that the Company's financial reports present a true and fair view of the Company's financial position and performance, have been prepared in accordance with relevant accounting standards and are based on the Company's internal systems of financial control and compliance.

The Board has received certification in writing from the CEO and Chief Financial Officer in connection with the Company's financial statements for the year ended December 31, 2018. The certification provided by the CEO and Chief Financial Officer as to the integrity of the financial statements was founded on a sound system of risk management and internal control and that system was

operating effectively in all material respects in relation to financial reporting risks. Further, management monitors material business risks and assesses internal control continually throughout the year.

These certifications are prepared in accordance with Canadian securities laws, and are substantially similar to those required under section 295A of the Australian *Corporations Act* 2001 (Cth).

4.3 External Auditor Available at AGM

The Company's auditor, PricewaterhouseCoopers, attends each annual general meeting and is available to answer questions about the conduct of the audit and the preparation and contents of the auditor's report.

PRINCIPLE 5 – MAKE TIMELY AND BALANCED DISCLOSURE

The Company has developed a Continuous Disclosure Policy and related procedures to ensure timely and balanced disclosure to stakeholders. A copy of the Continuous Disclosure Policy is available on the Company's website.

The Company complies with its continuous disclosure obligations by ensuring that price sensitive information is identified, reviewed by management and disclosed to applicable listing regulators in a timely manner and that all such information is posted on the Company's website as soon as possible after disclosure. The Company Secretary manages compliance with the Company's continuous disclosure obligations and communications with applicable listing regulators.

PRINCIPLE 6 – RESPECT THE RIGHTS OF SECURITY HOLDERS

The Board aims to ensure that Shareholders are kept informed of all major developments affecting the Company by communicating information through continuous disclosure, periodic reporting, investor briefings and presentations at the Company's annual general meetings. The Company posts public announcements, notices of general meetings, reports to Shareholders, presentations and other investor-related information on the Company's website. Shareholders are encouraged to attend all meetings or, if unable to attend, to vote on the resolutions proposed by appointing a proxy.

Shareholders are given the option to receive communications from, and send communications to the Company and its security registry, Computershare, electronically. Shareholders are also encouraged to contact the Company via its website which has a dedicated "Contact Us" page located at www.oceanagold.com/contact-us.

The Company's Investor Relations Policy which reflects recent guidance on shareholder communication published by the ASX in 3rd edition of the Principles, is available on the Company's website.

PRINCIPLE 7 – RECOGNISE AND MANAGE RISK

7.1 Risk Management

The Board is responsible for risk oversight and management, and is assisted in the discharge of its responsibilities in relation to risk by both the Audit and Financial Risk Management Committee and the Sustainability Committee.

The Company's risk management framework includes various internal controls and written policies, such as policies regarding risk management, authority levels for expenditure, commitments and general decision making and policies and procedures relating to health, safety and environment designed to ensure a high standard of performance and regulatory compliance. Communication to investors of any material changes to the Company's risk profile is covered by the Company's Continuous Disclosure Policy.

Further, the Company is fully committed to conducting business in an ethical and honest manner, and will comply with bribery and corruption laws in all of the jurisdictions in which it operates.

7.2 Audit and Financial Risk Management Committee

Management reports to the Audit and Financial Risk Management Committee on a quarterly basis, and the Committee in turn reports on key issues to the Board on a regular basis. Risk within the business is discussed monthly at the meeting of the Executive Management Committee, and the Company's internal risk management framework, as well as compliance with the framework, is signed off annually.

7.3 Sustainability Committee

OceanaGold's Sustainability Committee is chaired by J E Askew. The Sustainability Committee monitors and provides oversight on areas such as Human Rights, Community Engagement, Sustainable Development and Environmental Stewardship.

The Company has maintained a greater focus on Corporate Social Responsibility through the implementation of specific and detailed Health and Safety, Environment, Communities and Human Rights Policies.

The OGC Environment Policy pledges to manage the environmental impact associated with its operations responsibly, to comply with all material statutory requirements applicable to its operations, to rehabilitate the mine sites so they do not pose any unacceptable risk to the environment, and to develop an end of mine life land use that aims to leave a positive legacy.

The Community and Human Rights Policies emphasise the importance of being a responsible corporate citizen, and outline the Company's commitment to respect human rights, undertake community engagement and achieve sustainable economic and social development.

These policies are underpinned by a set of Compliance Standards to ensure that processes and procedures are implemented to deliver the Policy requirements. All policies and standards are reviewed every 2 years to maintain currency. Business units are audited against the compliance standards annually.

The Sustainability Committee assists the Board in furthering the Company's commitments to positively impact communities through environmentally sound and responsible resource development and healthy and safe work environments.

The **Sustainability Committee** is responsible for reviewing and making recommendations to the Board in respect of the management of technical risk and the furtherance of the Company's commitments to environmentally sound and responsible resource development and a healthy and safe work environment. As at the date of this Circular, members of the Sustainability Committee comprised:

- Jim Askew (Chairman);
- Geoff Raby; and
- Ian Reid

Every year, the Company publishes a Sustainability Report. This year, the Sustainability Report has been prepared in accordance with the Global Reporting Initiative G4 Guidelines. For more information on sustainability at OceanaGold, please refer to the latest Sustainability Report which is available on the website at: <http://www.oceanagold.com/investors-and-media/corporate-reports/>.

7.4 Internal Controls

Financial Internal Controls

The Company's internal audit function works closely with the Management to assess financial internal control processes and their effectiveness within the organisation. The function's remit includes reviewing and recommending improvements in systems, processes and controls to mitigate financial risks. Internal audit executes plans as approved by the Audit and Financial Risk Management Committee, and the senior internal auditor has independent access to the Chairman of that Committee. Internal Audit reports which highlight key findings and controls recommendations are also provided to the Management and the Audit and Financial Risk Management Committee.

Technical Compliance

Once a year the Company conducts a technical review of each of its operations. The reviews, conducted in line with Company standards, focus on core operations (open pit and underground operations and processing), the site's resources, reserves and life of mine plan. The reviews are largely risk-based, but they also seek out opportunities, and assess the outcomes and performance against outcomes from the previous year's review.

The review is conducted by a core team of qualified subject-matter experts including a geologist, geotechnical engineer, mining engineer and a metallurgist. Hydrology, hydrogeology and tailings facility experts join the team on an as-required basis. Once completed, a report is developed outlining the key findings and recommendations delivered to the operation's General Manager, Technical Services Manager, Chief Development Officer and Chief Operating Officer. The outcomes of the report are also assessed against health, safety and environment and commercial reviews.

Tailings Management

Over the past year OceanaGold has been working on improving its Governance and Management approach for tailings facilities. This has included consideration of the controls in place in the different jurisdictions where we operate. This process has led to the development of:

- A Corporate Statement of Position on Tailings Facilities
- Development of Corporate Tailings Governance Committee
- Development of improved internal governance including facility reviews
- Updated operational standards benchmarked against external best practice guidelines

Resources & Reserves Reporting

In addition to the above, the Company has implemented the Resource and Reserve Steering Committee, which is an executive management committee responsible for reviewing and monitoring compliance with Resource and Reserve reporting process, and ensuring that appropriate internal controls are applied to mineral resource and ore reserves calculations.

For more information on material risks, please refer to the Company's latest Annual Information Form for the year ended December 31, 2018 available at www.sedar.com.

PRINCIPLE 8 – REMUNERATE FAIRLY AND RESPONSIBLY

The total direct compensation for the Company's executive officers comprises both a fixed component and an at-risk component. The at-risk component is composed of short-term and long-term incentives. It does not provide for an executive pension plan. The compensation program aims to ensure total remuneration is competitive by market standards and links rewards with the short-term and long-term strategic goals and performance of the Company.

Currently, the Company's compensation package for its "Named Executive Officers" or "NEOs" consists of base salary, bonuses and the granting of performance rights under the Company's current Performance Rights Plan.

Executive compensation is linked to the performance of the Company and the individual, with the goal of ensuring that the total compensation is at a level that ensures the Company is capable of attracting, motivating and retaining individuals with exceptional executive skills and to align with shareholders' experience.

The Company does not have any retirement benefit schemes in operation or any accrued retirement benefits in favour of any of the non-executive directors. Further details regarding the remuneration of senior executives and non-executive directors can be found above at [Section D](#) and [Section E](#) of this document.

8.1 Remuneration and Nomination Committee

The Company has a combined Remuneration and Nomination Committee, the details of which are outlined above at section 2.1.

8.2 Policies on remuneration

The total direct compensation for the Company's Non-Executive Directors comprises both a fixed component and a one-off commencement grant of Deferred Units under the current Deferred Unit Plan.

As noted above, the Board maintains a Remuneration and Nomination Committee responsible for making recommendations to the Board regarding remuneration. The Remuneration and Nomination Committee Charter is available on the Company's website. The Remuneration and Nomination Committee Charter forms the basis for the Company's policies and procedures.

As the Company is incorporated in British Columbia, Canada, it is not required to comply with section 300A of the Australian Corporations Act 2001 or Accounting Standard AASB 124 Related Party Disclosures. The Company is however required under Canadian law to provide details on director and senior executive compensation arrangements and these details can be found in this Management Information Circular. Whilst these disclosures are not materially the same as would otherwise be disclosed if the Company were incorporated in Australia and regulated by the Australian *Corporations Act* 2001 (Cth), the Company regards such disclosures as providing Shareholders with an appropriate level of information.

8.3 Policy on entering into transactions which limit the economic risk of participating in equity based remuneration scheme

In accordance with the Company's Securities Trading Policy, all senior management (including NEOs and directors) must not buy, sell or deal in the Company's securities during any blackout periods.

The Company currently operates one active employee equity compensation plan, being the Performance Share Rights Plan. The Company's Option Plan expired on June 4, 2013. Notwithstanding the expiry of the Option Plan, a number of options remain outstanding and continue to vest under the Option Plan.

Furthermore, both the Romarco and Pacific Rim Option Plans were introduced into the Company following the Romarco and Pacific Rim Arrangements involving the acquisition of those respective companies. For clarity, the Company does not issue options under these plans, rather maintains the Romarco Option Plan whilst outstanding options continue to vest and expire. There are nil outstanding options under the Pacific Rim Incentive Stock Option Plan.

Pursuant to the Performance Rights Plan designated participants under the Performance Rights Plan are not permitted to enter into transactions which limit the economic risk, or hedge or offset a decrease in the market value of performance rights which have not vested. Please see [Section C](#) for more information on the Performance Rights Plan.

Additional Disclosure relating to Non-GAAP Measures

The Company has included certain non-GAAP measures including "Cash Costs per ounce" and "All-In Sustaining Costs per ounce" to supplement its consolidated financial statements, which are presented in accordance with IFRS ("GAAP"). As non-GAAP performance measures do not have a standardised meaning prescribed by GAAP, they are unlikely to be comparable to similar measures presented by other companies. The Company provides these non-GAAP measures as they are used by some investors to evaluate OceanaGold's performance. Accordingly, such non-GAAP measures are intended to provide additional information and should not be considered in isolation, or a substitute for measures of performance in accordance with GAAP.

All-In Sustaining Costs ("AISC") per ounce sold is a non-GAAP measure and it is based on the World Gold Council ("WGC") methodology. WGC is not a regulatory industry organisation and does not have the authority to develop accounting standards for disclosure requirements. AISC is intended to provide additional information only and does not have any standardised meaning under IFRS and may not be comparable to similar measures presented by other mining companies. It should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS.

The measure is not necessarily indicative of cash flow from operations under IFRS or operating costs presented under IFRS.

Cash costs per ounce sold is a non-GAAP measure used by the Company to manage and evaluate operating performance at each of the Company's mine units, and are widely reported in the mining industry as benchmarks for performance, but do not have a standardised meaning and are disclosed in addition to the IFRS measures.

The following table reconciles these non-GAAP measures to the most directly comparable IFRS measures on a Company-wide basis.

The delegation of authority to the CEO is subject to the limits determined by the Board from time to time.

The CEO is formally delegated by the Board to authorise all expenditure (including capital expenditure) as approved by the Board in the budget for the relevant year.

The following limitations on the authority of the CEO apply, subject to modification or addition by the Board from time to time. Unless otherwise specified, the CEO must obtain Board approval for the following.

- (a) All payments to the CEO, outside of normal agreed monthly remuneration, must be authorised by the chairman.
- (b) To enter into any contract or incur any obligation or liability on behalf of the Company or any of its subsidiaries with a value, or actual or potential liability to the Company, in accordance with the limits determined by the Board from time to time, except where such a contract, obligation or liability is specifically allowed for in the Company's budget (as approved by the Board) for that financial year.
- (c) To take any action or enter into any course of conduct on behalf of the Company or any of its subsidiaries which is outside the ordinary course of business without the prior approval of the chairman. The chairman may decide that the matter must be approved by the Board, in which case Board approval is required.
- (d) To provide, or offer to provide, any remuneration packages to employees or contractors which include or comprise wholly of a securities-based component.
- (e) To agree to issue any securities in the Company to any person, unless such agreement is expressed to be subject to Board approval.

5. Chief financial officer ("CFO")

The CFO and senior finance officers influencing financial performance of the Company will:

- (f) conduct their duties at the highest level of honesty and integrity, recognising that integrity is the benchmark against which the CFO must conduct all decision making;
- (g) observe the rule and the spirit of the law and comply with any relevant ethical and technical standards;
- (h) maintain the confidentiality of all information acquired in the course of conducting the role and not make improper use of, or disclose to third parties, any confidential information unless that disclosure has been authorised by the Board, or is required by law, any securities regulatory authority or by the rules of any stock exchange on which the Company's securities are listed;
- (i) observe the principles of independence, accuracy and integrity in dealings with the Board, audit committees, board committees, internal and external auditors and other senior managers within the Company;
- (j) disclose to the Board any actual or perceived conflicts of interest, whether of a direct or indirect nature, of which the CFO becomes aware and which the CFO reasonably believes may compromise the reputation or performance of the Company;
- (k) maintain transparency in the preparation and delivery of financial information to both internal and external users;
- (l) exercise diligence, skill and good faith in the preparation of financial information and ensure that such information is accurate, timely and represents a true and fair view of the financial performance and condition of the Company and complies with all relevant legislative requirements;
- (m) ensure the maintenance of a sound system of internal controls to safeguard the Company's assets and to manage risk exposure through appropriate forms of risk control;
- (n) set a standard of honesty, fairness, integrity, diligence and competency in respect of the position of CFO; and
- (o) observe, develop and implement the principles of this Board Charter in a conscientious, consistent and rigorous manner.

6. Independence of directors

The Board of Directors shall be constituted at all times of a majority of individuals who are “independent directors” in accordance with applicable legal requirements, including the requirements published by the Canadian Securities Administrators and the ASX Corporate Governance Council as such rules are replaced, updated or revised from time-to-time.

In addition, in accordance with applicable legal requirements for service on an audit committee, the committee shall be comprised solely of non-executive directors, and a majority must be “independent”.

The remuneration committee shall be comprised solely of non-executive directors, a majority of whom are “independent”. A copy of the independence requirements is reproduced in Schedule “A”.

6.1 Disclosure of independence

Each independent director of the Company must regularly provide to the Board all information regarding his or her interests that is relevant to his or her independence having regard to the standard outlined in Schedule A.

6.2 Annual disclosure

The Board must ensure that on an annual basis, the following information is disclosed:

- (a) the names of directors who are considered by the Board to be independent;
- (b) the Board’s reasons for considering a director to be independent;
- (c) the Board’s reasons for considering a director to be independent despite the existence of the relationships set out in Schedule A;
- (d) the period of office of each director.

7. Conflicts of interest

As a general principle each director must bring an enquiring, open and independent mind to Board meetings, listen to the debate on each issue raised, consider the arguments for and against each motion and reach a decision that he or she believes to be in the best interests of the Company as a whole free of any actual or possible conflict of interest and consistent with the Directors’ Code of Conduct and the law.

If directors wish to avail themselves of the business judgment rule they will need to be continuously vigilant to identify circumstances of conflicting interests, that is, circumstances where the director may have a material personal interest in the matter before the Board or a committee.

If the Board determines that a director might be in a position where there is a reasonable possibility of conflict between his or her personal or business interests, the interests of any associated person, or his or her duties to any other company, on the one hand, and the interests of the Company or his or her duties to the Company, on the other hand, the Board will require that the director:

- (a) fully and frankly informs the Board about the circumstances giving rise to the conflict; and
- (b) abstains from voting on any motion relating to the matter and absenting himself or herself from all board deliberations relating to the matter including receipt of Board papers bearing on the matter if required by the remainder of the board.

If the Board resolves to permit a director to have any involvement in a matter involving possible circumstances of conflicting interests the Board must minute full details of the basis of the determination and the nature of the conflict including a formal resolution concerning the matter.

If a director believes that he or she may have a conflict of interest or duty in relation to a particular matter, the director should immediately consult with the chairman, or if applicable, the lead Director.

The company secretary will maintain a register of all possible conflict of interest situations that are disclosed to the Board.

8. Meetings

An agenda will be prepared for each Board and committee meeting. The Board meeting will follow a format developed by the CEO and approved by the chairman. Each meeting should allow for informal discussions between Board members. Directors should ordinarily receive an agenda and any related material to be considered at a Board meeting no later than five days prior to the relevant meeting in order to give appropriate consideration to such material.

The members of the Board of directors should arrange to meet at least once in each financial year to conduct a non-executive discussion of board and management issues. These meetings are to be used to provide feedback about board processes, including the adequacy and timeliness of information being provided to the Board. At times these meetings may focus on substantive issues that some Board members wish to discuss without management present. These meetings may also discuss areas where the performance of independent directors could be strengthened. The Board may meet at any place within, or outside Canada.

Any issues arising from these meetings that bear on the relationship between the Board and management will be communicated quickly and directly to the CEO by the chairman or other delegated person.

8.1 Consent Resolutions

Urgent matters that cannot wait until the next Board meeting can be dealt with by consent resolution. Consent resolutions should, where possible, be approved by the chairman before being circulated and should normally be preceded by a telephone meeting, if practical.

Consent resolutions must be signed by all directors approving the action and will be entered in the Board minute book. If all directors approving the action do not sign the resolution, the item is deferred to the next Board meeting.

9. Board committees

The Board has established the following committees:

- (a) Audit and Financial Risk Management Committee;
- (b) Remuneration and Nomination Committee;
- (c) Sustainability Committee.

These committees are designed to consider specific matters and make recommendations to the Board. However, it is not intended that these committees restrict the ability of the Board to make an independent assessment of the recommendations, having regard to the Board’s knowledge of the Company and the complexity of the structures and operations of the Company. The Board will consider the materials and recommendations presented to them and bring their own mind to bear on the issue using the skill and judgment they possess.

The Board will consider and approve the charters of the various committees.

The Board will be given an update on the key outcomes from the Committee meetings and all non-executive directors may attend meetings of committees of which they are not members.

10. The Board and Executive Management

Any director may communicate directly with employees of the Company but such communications are to be made having regard to the efficient operation of the Company and the need to preserve and maintain an effective chain of command and the confidentiality of the Board's deliberations.

Where individual directors wish to communicate with executive management or with other employees or representatives of the Company in relation to company business, all communications must be facilitated by the chairman.

11. Independent advice

A director of the Company is entitled to seek independent professional advice (including but not limited to legal, accounting and financial advice) at the Company's expense on any matter connected with the discharge of his or her responsibilities, in accordance with the procedures and subject to the conditions set out below:

- (a) a director must seek the prior approval of the chairman;
- (b) in seeking the prior approval of the chairman, the director must provide the chairman with details of:
 - (i) the nature of the independent professional advice;
 - (ii) the likely cost of seeking the independent professional advice; and
 - (iii) details of the independent adviser he or she proposes to instruct.
- (c) the chairman may prescribe a reasonable limit on the amount that the Company will contribute towards the cost of obtaining such advice;
- (d) all documentation containing or seeking independent professional advice must clearly state that the advice is sought both in relation to the Company and to the director in his or her personal capacity. However, the right to advice does not extend to advice concerning matters of a personal or private nature, including for example, matters relating to the director's contract of employment with the Company (in the case of an executive director) or any dispute between the director and the Company;
- (e) the chairman may determine that any advice received by an individual director will be circulated to the remainder of the Board.

12. Remuneration

The level of non-executive director remuneration will be set by the Remuneration and Nomination Committee so as to attract the best candidates for the Board while maintaining a level commensurate with boards of similar size and type.

In line with the Company's desire to maintain director independence, each director is permitted to deal in personal securities of the Company in accordance with the Securities Trading Policy.

13. Board performance

The Board believes that regular assessment of the Board's effectiveness and the contribution of individual directors is essential to improve governance.

At least once in each financial year, the Board shall consider conducting a performance evaluation and review:

- (g) of the Board to compare the performance of the Board with respect to the requirements of this Board Charter and current best practice principles of corporate governance;
- (h) of individual directors' contribution to the Board;
- (i) of the Board's committees; and
- (j) of the goals and objectives of the Board including establishing those for the upcoming year.

The focus of the evaluation will be on how performance can be made more meaningful in setting and achieving goals that add value. The results will be internal to the Board, but disclosure will be made in the annual report and the Company's website that such evaluations are undertaken.

The Board will determine the manner and form of the performance evaluation. The Board, in conducting its evaluation, shall have regard to the review questionnaire set out in Schedule B.

14. Review of Board Charter

The Board will periodically review this Board Charter, and the charters of each of the committees, and make any amendments it determines are necessary or desirable.

Please note, you cannot change ownership of your securities using this form.

Your vote is important

Each CHES Depositary Interest (CDI) is equivalent to one share of Company Common Stock, so that every 1 (one) CDI that you own at 10 May 2019 (record date) entitles you to one vote.

You can vote by completing, signing and returning your CDI Voting Instruction Form. The CDI Voting Instruction Form gives your voting instructions to CHES Depositary Nominees Pty Ltd, which will vote the underlying shares on your behalf. You need to return your completed CDI Voting Instruction Form so that it is received at the address shown on the Form not less than 72 hours before the meeting (excluding Saturdays, Sundays and holidays). Election of Directors and Appointment of Auditors

In accordance with applicable Canadian corporate and securities laws, a form of proxy (and consequently, a voting instruction form) sent to securityholders of a reporting issuer must provide an option for the securityholder to specify that the securities subject to the form must be voted or withheld from voting in respect of the appointment of an auditor or the election of directors. Accordingly, this CDI Voting Instruction Form provides voting "For" or "Withhold" (which is the equivalent to "Abstain") with respect to the appointment of an auditor and the election of directors.

Each holder must sign this form. If your CDIs are held in joint names, all holders must sign in the boxes. If you are signing as an Attorney, then the Power of Attorney must have been noted by the Company's Australian Registry or a certified copy of it must accompany this form.
